Research Paper for ISOL632

Assignment:

Write a 3-4 page APA formatted paper comparing your organization's disaster recovery and business continuity plans with the best practices outlined in our course text. Content should include, but not be limited to: selecting the DR team, assessing risks and impacts, prioritizing systems and functions for recovery, data storage and recovery sites, developing plans and procedures, procedures for special circumstances, and testing the disaster recovery plan. Your paper should include an abstract and a conclusion and a reference page with 3-5 references.

Requirements:

Papers not turned in within 24 hours of the due date will receive a grade of ZERO!)

Comments:

- For help with APA formatting, see the Information links on iLearn. There is a sample paper as well as a link to a site that has extensive APA documentation.
- Please pay careful attention to the due dates and times for this assignment
